

While windows and doors are available today from a wide range of manufacturers and come in almost any shape and size, correctly proportioned and detailed **Windows and Doors** are key to the design of the house. The Pattern Book illustrates standard window and door types used for each architectural style and special windows and doors used as accents.

Porches are important elements in the Norfolk environment and find expression in almost every architectural style or vocabulary. Setting the appropriate column types, porch cornices, railings, and balustrades is key to establishing the character of the house. The Pattern Book offers options found within a particular style complete with sample profiles that illustrate the correct dimensions and components.

The final assembly of the various components should produce a house of recognized character and quality no matter what the size. Appropriate materials are discussed in the Appendix. A series of illustrated possibilities within each style section demonstrates the effective application of the Pattern Book guidelines.
